Summary

AI Engineer with **2 years in AI development**, focused on SaaS and AI-powered software for B2B clients. At BraiinIt, delivered **4 SaaS products** and **6 mobile apps** with **7M+ downloads**; at AIPOOOL, delivered a **$7k** WhatsApp chatbot MVP. Focus areas: **SaaS product development, AI model integration (OpenAI/Gemini), workflow automation and LLM evaluation**; prior coding-correctness work at Scale AI. B.Tech CSE, IIIT Pune.

Experience

•Founder & AI Engineer *09/2025 - Present*
BraiinIt Nagpur, INDIA

- Built **Prosper AI**, a ~**$10k** B2B voice-agent project for healthcare revenue-cycle workflows, including eligibility, pre-authorization and claim-status calls, using a voice-AI stack selected jointly with the client.
- Built AI workflows for **Squint AI**'s manufacturing intelligence platform, converting videos, spreadsheets and PDFs into standardized work instructions and troubleshooting guidance using an AI workflow architecture aligned with client requirements.
- Built an outbound AI calling agent with CRM integration for **SwiftLeads AI** and a bilingual AI receptionist for **Coredina AI**'s dental workflows in Mexico, supporting Spanish dental terminology and Mexican Spanish dialects, using voice-AI integrations selected in consultation with each client.
- Built AI-enabled features for **Rollout AI** (website builder) and **ePlant** (plant identifier) using **OpenAI and Gemini models**.
- Shipped **6 mobile apps in 2026** using Flutter, with **7M+ combined downloads**, including CricScore (**5M+**) and Dhurina (**1M+**); average rating **4.6 stars**.

Additional portfolio: Drop Taxi (ride-hailing), HabTok (social).

•Co-Founder, Technical & Delivery Lead *10/2024 - 09/2025*
AIPOOOL Remote (Saudi Arabia, US, Germany)

- Built an AI WhatsApp chatbot SaaS for bookings and appointments using Node.js, Express, TypeScript, WebSockets, node-cron, PostgreSQL and Drizzle ORM; integrated 360dialog as the Meta messaging partner and delivered a **$7k MVP** for international clients.
- Defined SLA-based acceptance criteria and QA checklists; documented a test strategy for Jest unit tests, API/database integration, Playwright end-to-end, Artillery performance and OWASP ZAP security tests.

•Software Development Intern *10/2023 - 03/2024*
Futures First Hyderabad, INDIA

- Built a commodities-trading platform UI with order routing, raising user engagement by **30%** and cutting order execution time by **25%**.
- Integrated **Lightstreamer** for live market-data streams (**+40%** streaming efficiency) and used **Amazon EC2** for secure order data handling (**99.9% uptime**, **+30%** order-processing efficiency).

•Associate AI Trainee *06/2023 - 10/2023*
Scale AI Online

- Wrote and executed coding challenges for LLM training (**88% accuracy**) and rewrote **500+** model prompts, improving human-AI interaction accuracy by **32%**.
- Evaluated LLM-generated responses primarily for **coding correctness** as part of RLHF task workflows.

•Software Development Intern *04/2023 - 06/2023*
ITJOBXS Remote

- Built the **PHP/MySQL** backend with optimized queries supporting **2000+ concurrent sessions**; containerized with **Docker** and deployed on **Minikube and AWS EKS**.

Technical Skills

LLM & Agents: OpenAI, Google Gemini, LLMs, prompt engineering, RAG, agentic AI, multi-agent systems, tool/function calling, LangChain, LangGraph, CrewAI, MCP (Model Context Protocol), A2A protocol, n8n, RLHF data work

Voice AI: STT, TTS, telephony, real-time voice agents, Pipecat, LiveKit Agents

Retrieval & Data: embeddings, vector search, hybrid search (dense + sparse), re-ranking, text-to-SQL, Pinecone, Qdrant, Chroma, Supabase, FAISS, MongoDB, MySQL, PostgreSQL, Redis

Model Serving & Eval: vLLM, Ollama, Hugging Face, LoRA/PEFT fine-tuning, Ragas, Langfuse, LLM evaluation, observability/tracing, guardrails, LLMOps, prompt versioning

Languages: Python, JavaScript, TypeScript, SQL, Dart, C/C++, C#, Go, Rust

Backend & Web: FastAPI, Pydantic, Node.js, Express.js, React, Next.js, Laravel, .NET, REST APIs, WebSockets, GraphQL, Firebase, CRM and Instagram Graph API integrations, Kafka

Cloud & DevOps: AWS (EC2, EKS), Azure OpenAI, AWS Bedrock, Docker, Kubernetes (Minikube), Linux, CI/CD

Education

•Bachelor of Technology in Computer Science and Engineering *2020-24*
Indian Institute of Information Technology, Pune **CGPA:** 8.14

Achievements

- Achieved an **All India Rank of 599** in **ICPC Amritapuri Preliminary Round 2022**.
- Secured the **top 0.27% globally** on InterviewBit (**Institute Rank: 1**).
